CREATE

A WORLD OF OPPORTUNITIES

Transition to Work Program

ETC's approach to working with young people is based on creating an environment where you feel connected, unique and respected.

Our highly individualised program of group activities, accredited training and engagement with other programs will be developed for you based on your needs, interests and skills.

We offer a range of activities to help you explore and discover your unique skills.

Pumped ▶

This fun day will get you energised about your goals, pathways and what you really want your future to look like!

Discover ▶

On Discover days you will find out first-hand from employers about the industries you are interested in, what it is like to work in them, and how to get on board.

Activate ▶

Ready and waiting for a job? This workshop will help get you and your resume in front of employers who have jobs available.

Visualise ▶

This series of workshops will give you the edge by revealing some secrets about how to succeed at job applications and interviews, the things employers want and expect in the workplace, and how to be an awesome employee.

Project ME ▶

Get ready to show your talents by developing a project of your own to benefit the community and help you and other young people find jobs.

On Track ▶

If you want to develop some great life skills but are not quite ready yet to find a job or be in the classroom, then this program is for you. We'll give you lots of support and keep it fun while you're learning.
