

# Sometimes words are not enough

## A VISUAL SHOWCASE OF STORIES OFTEN UNTOLD

Photovoice is a five week photography project for people with disability, or family and carers of people with disability, designed to capture your unique experiences of the world.

Sometimes words are not enough. Sometimes there are no words that exist to capture how we feel. In Photovoice words are not necessary - we learn to use imagery through photography to express how we feel, to illuminate, inform and educate others.

All you need to join is a smart phone or a camera, and to download the Zoom App. Photovoice is for people over 18 years of age.

To join one of our **FREE Photovoice Groups** or to learn about the NDIS call **Social Futures** on **1800 522 679**.
